Agentic Research Pipelines: A Sample Paper

A. Author, B. Author — Agletras Research (fictional sample)

Abstract

This sample PDF exists to verify the agletras-mcp extract_pdf tool.
It contains distinctive markers: AGLETRAS_SAMPLE_2026 and PDF_OK_TOKEN.

Keywords: agentic research, MCP, zero-cost tooling, Linux

1. Introduction
The built-in web search backend was unavailable during Phase 0 auditing, so retrieval targets explicit URLs and locally provided documents. AGLETRAS_SAMPLE_2026 appears on this page as a second-page marker.

2. Conclusion
PDF text extraction is verified end to end with pypdf.
